CONTINUATION SHEET

47 High Street

Other notable features of building or site

Fenestration consists of one-over-one windows and six-over-six double-hung windows. In the gable attic of the house is a six-pane fixed window. The Greek Revival features include the overhanging eaves with cornice returns, a wide fascia board, front-gable orientation of the house, the symmetrical façade, and the pediment above the main entry. A large dormer was added on the east slope of the roof and an addition is on the north elevation of the house.
