HISTORIC RESOURCE INVENTORY – BUILDINGS AND STRUCTURES

CONTINUATION SHEET

136 Neck Road

Buildings and Surroundings Continued

This section of Guilford is a small peninsula located just south of where the East River and the Neck River meet and then connect with Long Island Sound.

Notable Features Continued

The house has triangular glass windows on east and west elevations and a glass wall on the south diagonal elevation. A large wooden deck is located on the west and south elevations of the building and a chimney stands on the north elevation. The site, set low near the water, required the installation of large granite blocks as a sea wall to protect the property from erosion.
