HISTORIC RESOURCE INVENTORY – BUILDINGS AND STRUCTURES

CONTINUATION SHEET

45 Old Quarry Road

Notable Features Continued

At least four more of the same windows and a square bay window are on the first floor level with two front door entries. One door is at the south side of the façade (a cross gabled wing) and one is next to the bay window on the north side of the façade. Covering these windows and doors is a full façade open porch, only one step up from ground level. White, turned spindle supports hold up a flat roof. The north end of the porch was extended from the original part (inset in the ell of the cross gable and main section) around 2006.

Historical/Architectural Significance Continued

World War I ended the operation of the quarry as costs drastically increased. Sons John and David Walker were later owners as of 1909.
