HISTORIC RESOURCE INVENTORY – BUILDINGS AND STRUCTURES

CONTINUATION SHEET

258 River Street

Buildings and Surroundings

A garage attached to a barn is located at the northwest corner of the property, at the rear of the main buildings.

Notable Features

There are three six over six hung sash windows on the second floor level. Two more of the same windows are on the first floor level next to a front door and entry porch, located on the south side of the façade. All the windows have black shutters. The porch has a hip roof and iron decorative supports. A red door with paneled windows can be seen behind a screen door. A cement stoop leads up to the porch and door. To the south, on the commercial section, is a door entry to the business. Three wide fixed windows are also located on this section of the building.
