HISTORIC RESOURCE INVENTORY – BUILDINGS AND STRUCTURES

CONTINUATION SHEET

24 Water Street

Notable Features

A rectangular hopper window is located near the roof peak and three two over two hung sash windows on the second floor level under cornice returns. The first floor level looks like a store front, but at one point it was a porch. It has a flat roof, two large windows and a recessed door entry. A small gray stairway leads up to the gray door with one panel and a large window. A small wing extends off the east side, set back from the front, and has a small stoop with stairs leading up to a door.
