**CONTINUATION SHEET** 

**138 Whitfield Street** 

## **Notable Features**

Three, tall and narrow two over two hung sash windows are on the second floor level under the cornice returns, and two of the same on the first floor on either side of the entryway. The simple flat roofed entry, with two one-story columns, stands over a yellow door flanked with sidelights and a six step stone stoop with railings. A white belt course expands beyond the line of the entry roof across the midsection of the facade.
